INTRODUCTION

Memes found a home on Solana. All shapes & sizes, animals & bots, celebrities & politicians were getting their share of mimicry sprinkled with euphoria from great gains. The community was bubbling energy with new and innovative meme cases to explore every day, just then the foundations of the infrastructure couldn't HODL the exponential growth brought about by this meme explosion.

The network got congested & transactions started to fail. The vibrant community began to lose steam and collapse as the Solana network continued disappointing the users. The impact of all these was reflected in the chain's TVL and the decline in the price of SOL. Solana was NGMI.

The future looked bleak as the other dogs & cats experienced massive losses & brought maximum pain to holders. Pussy Cat brings back a spark of hope again for the Solana meme ecosystem. It is built to be the dearest cat on Solana and will restore the lost glory on the chain. The Pussy Cat will bring together the cat memes which were once scattered away from Solana and make the community come alive again stronger than before with its \$Pussy token.

MISSION & OBJECTIVES

Pussy Cat was built with ❤️ for the Solana community. It's on a mission to ignite the vibrance of the ecosystem again after its recent mishap. Outlined below are the objectives of this dear cat on Solana to lift back up users' spirits about Solana.
